

F-ANALYTICS: PROVEN REGULATORY REPORTING EXCELLENCE

Trusted by over 10 European banks, F-Analytics is renowned for its precision in regulatory reporting and its adaptability to evolving compliance demands. With deep regulatory expertise, the platform simplifies complex reporting processes, allowing financial institutions to deliver accurate, timely reports with confidence

UPGRADE TO THE NEW VERSION

The latest release of F-Analytics, now pre-integrated with Oracle Flexcube, is available on both Azure Cloud and on-premises. This version enhances reporting capabilities with embedded formulas for credit, market, concentration, liquidity, and operational risk, empowering institutions to meet compliance goals faster and more efficiently.
